

WHY YOU SHOULD CONSIDER USING INCOMPASS FOREX FOR YOUR MONEY TRANSFERS

Incompass has been providing financial solutions since 2003. Our commitment to providing both innovative and comprehensive currency transfer solutions has resulted in us becoming one of South Africa's foremost experts in the field of foreign exchange.

Our money transfers, into and out of South Africa, are done in strict accordance with money laundering and exchange control regulations; and all our transactions are audited in terms of license and banking requirements.

••••• BENEFITS AT A GLANCE •••••

BETTER RATE

We typically save you between 1.5% and 3% on retail bank rates. The way we achieve this is simple. The currency rate offered by commercial banks will be the "retail rate" and an administration charge will generally be levied. Of course with Incompass all transactions are handled separately but they are all viewed to be under the Incompass umbrella - providing you with the benefit of bulk buying.

PRIVATE BANKING EXPERIENCE

Real people, no call centres. We visit you where it suits you or you can come to our offices. We'll watch the rate for you and trade for you on your instruction. The rate you agree to is the rate you get.

EASY FICA REGISTRATION

We make the FICA registration process stress free and uncomplicated.

SAFETY OF FUNDS

Your funds go into a bank account in your own name. We are FSB registered, ISO certified and have Fidelity Insurance.

NO FEES

No service fees, no admin fees for amounts above R50 000 ZAR.
